R v.2 Sept. 1894 - Feb. 1895

CONTENTS.

	PAGE
Snake Poison. By W. D. Halliburton, M.D., F.R.S., Professor of Physiology in King's College, London,	1
Algæ as Rock-building Organisms. By A. C. Seward, M.A., F.G.S., University Lecturer in Botany, Cambridge,	10
The Biological Characters of Bacillus Typhosus (Eberth) and Bacterium Coli Communi (Escherich). By George A. Buckmaster, M.A., M.D., Lecturer in Physiology in St. George's Hospital Medical School,	27
Fossil Algæ. By George Murray, F.L.S., British Museum (Natural History Department),	37
Ancient Volcanic Rocks. By Alfred Harker, M.A., Fellow of St. John's College, Cambridge,	48
The Measurement of Temperature. By E. H. Griffiths, M.A.,	64
The Ethnography of British New Guinea (Part I.), with maps. By A. C. Haddon, M.A., Professor of Zoology in the Royal College of Science, Dublin,	83
Work on the Palæozoic Rocks, published in 1894. By J. E. Marr, F.R.S., Fellow of St. John's College, Cambridge,	96
The Reserve Materials of Plants. By J. Reynolds Green, M.A., D.Sc., Professor of Botany to the Pharmaceutical Society, London,	109
Indian Geology. By Philip Lake, M.A.,	127
Continuous-current Dynamos (Part I.). By C. C. Hawkins, M.A.,	140
On the Morphological Value of the Attraction-Sphere (Part I.). By J. E. S. Moore, A.R.C.S.,	153
Inhibition. By Augustus D. Waller, M.D., F.R.S., Lecturer on Physiology at St. Mary's Hospital Medical School,	163
The New Theory of Solutions (Part III.). By J. W. Rodger, A.R.C.S.	170
Recent Researches in Thermal Metamorphism (Part I.). By Alfred Harker, M.A., Fellow of St. John's College, Cambridge,	185
On the Kinetic Theory of Gases. By S. H. Burbury, F.R.S.,	203
The Ethnography of British New Guinea (Part II.). By Alfred C. Haddon, M.A., Professor of Zoology in the Royal College of Science, Dublin,	227

PUBLIC LIBRARY
DETROIT MICH.

PAGE

On the Artificial Hatching of Marine Food-Fishes. By W. C. McIntosh, F.R.S., Professor of Zoology in the University of St. Andrews, - - - - - - - - - - - 249

The Molecular Weight of Liquids. By John Shields, D.Sc., - - 265

The Origin of the Vascular Plants. By D. H. Campbell, Ph.D., Professor of Botany in Leland Stanford University, California, - - - - - - - - - - - - - 278

Recent Researches in Thermal Metamorphism (Part II.). By Alfred Harker, M.A., Fellow of St. John's College, Cambridge, - - - - - - - - - - - - 290

Continuous-current Dynamos (Part II.). By C. C. Hawkins, M.A., 305

On the Morphological Value of the Attraction-Sphere (Part II.). By J. E. S. Moore, A.R.C.S., - - - - - - - - 319

Kew Thermometers—A Correction. By E. H. Griffiths, M.A., - 331

Physiological Absorption. By E. Waymouth Reid, Professor of Physiology in University College, Dundee, - - - - - 333

Coal: Its Structure and Formation (Part I.). By A. C. Seward, M.A., University Lecturer in Botany, Cambridge, - - 355

The Coagulation of the Blood. By W. D. Halliburton, M.D., F.R.S., Professor of Physiology in King's College, London, - - 369

Insular Floras (Part III.). By W. Botting Hemsley, F.R.S., - - 379

Folds and Faulting: A Review (Part I.). By W. F. Hume, D.Sc., 399

Varieties of Leucocytes. By C. S. Sherrington, M.D., F.R.S., - 415

Coal: Its Structure and Formation (Part II.). By A. C. Seward, M.A., University Lecturer in Botany, Cambridge, - - 431

On Digestion in the Cœlentera. By S. J. Hickson, M.A., D.Sc., Professor of Zoology in Owens College, - - - - - 447

Folds and Faulting: A Review (Part II.). By W. F. Hume, D.Sc., 456

Neozoic Geology in Europe. By Philip Lake, M.A., St. John's College, Cambridge, - - - - - - - - - - 476

APPENDIX.

Chemical Literature for July, 1894, - - - - - - - I

Chemical Literature for August, 1894, - - - - - - - VII

Chemical Literature for September, 1894, - - - - - - XIII

Chemical Literature for October, 1894, - - - - - - XIX

Chemical Literature for November, 1894, - - - - - - XXIII

Chemical Literature for December, 1894, - - - - - - XXIX
